TAILOR COVERING

Immagina un ambiente avvolgente. Immagina pareti e pavimenti parlanti. Chi dà voce è un *wallpaper* contemporaneo, dove carta da parati, fibra di vetro

e materiali fonoassorbenti diventano rivestimenti dagli straordinari effetti materici, adatti ad ogni ambiente *indoor* e non solo.

/ Imagine an enveloping environment. Imagine talking walls and floors. Who gives voice is a contemporary wallpaper, where wallpaper, fiberglass

and sound-absorbing materials become coverings with extraordinary material effects, suitable for any indoor environment and beyond.
